**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Advisory Information***

1. The numbering of claims is not in accordance with 37 CFR 1.126, which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Claims 1-29 were originally present in the application as filed. Claims 1-21 have been canceled and claims 22-39 have been added as requested by Applicant in the Paper filed Sept. 25, 2001. However, since claims 22-29 were still pending, newly added claims 22-31 have been renumbered as claims 30-39. Therefore, claims 22-39 are currently pending. The following restriction is based on the new claim numbers.

### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 22-39, in so far as they are drawn to polypeptides of SEQ ID NO: 3 or 4, nucleic acids encoding, and method of treating obesity with the polypeptide.

Group II, claim(s) 24, in so far as it is drawn to a method of treating obesity comprising administering an antagonist to the polypeptide of group I.

Group III claim(s) 27 in so far as it is drawn to a method of treating obesity comprising administering a nucleic acid of group I.

Art Unit: 1646

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the methods of treatment of groups II and III require administration of either antagonist to the polypeptide of group I or nucleic acid, each of which requires administration of different compounds which are structurally and functionally different from each other. Lack of unity is shown because these methods lack a common utility which is based upon a common structurally feature which has been identified as the basis for that common utility.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
